ABOUT US

2007-2024

With an early focus on green energy and cost-saving initiatives, Hi-Tech paved the way for use of **biomass for process heat generation** in multinational corporations like Kelloggs, Coca-Cola, and DIAGEO in India and East Africa.

Since then, we have expanded into a reliable **full value chain mechanical engineering consultancy, services, and export** firm offering a wide range of solutions to manufacturing companies primarily in the FNB industry.

OUR CORE TEAM

Harish Ingavale, the founder of Hi-Tech, is a **Graduate Mechanical Engineer with a post-graduate Diploma in Management Studies**. He is also a **Certified Boiler Proficiency Engineer and BEE Certified Energy Manager**.

Experience: 29 years in Operations, Project Management, Engineering, and Energy Consultancy

Areas Of Specialisation: Full value chain Engineering Consultancy and Project Management.

Sameer Ingavale is currently heading the exports division at Hi-Tech. He holds a Bachelor's degree in **Business Management & Entrepreneurship** from The University of Texas at Arlington. A self-taught software developer, he has worked in startups in operations and sales roles.

Experience: 5 years in Export, B2B Procurement, Startup Operations, and Outbound Sales.

Areas Of Interest: Procurement, Software, Sales.

Ramesh Krishnan has worked with Global MNCs like PepsiCo, Coca Cola, Diageo, and Carlsberg in Supply Chain Leadership roles. A **Mechanical Engineer and Chartered Engineer from IEI**, he is also a **Master Trainer from IATD and a certified Lean Six Sigma Practitioner**.

Experience: 35 years in Manufacturing Operations.

Areas of Specialisation: Productivity Improvement, Cost Optimisation, and Waste Reduction projects.

Project Management Consultancy

Engineering consultancy services for greenfield and brownfield projects as well capacity expansion, quality improvement, and cost-saving initiatives.

Energy Audits & Idea Implementation

In-depth and comprehensive thermal and electrical energy audits followed by improvement alternatives and implementation support.

Turnkey Installation of Equipment & Other Services

Turnkey installation and commissioning of equipment and machinery, SS piping, fabrication of structures, argon welding, and IBR steam line-related work.

Biomass Boiler Projects & Briquette Supply

Modification of existing fossil fuel boilers to biomass boilers, supply of biomass briquette fuel for operation, as well as undertaking Steam-as-a-Service contracts.

Machinery Servicing & Maintenance

Annual maintenance and periodic servicing of process and packaging equipments, utilities such as air compressors, chillers, and water treatment plants among others.

Industrial Machinery & Spare Parts Supply

One-stop-shop for supply of industrial mechanical and electrical spare parts and machinery from pumps and motors to boilers and water softer systems.
